Revitalization of the Area

Sanitation projects should be examined by the Township Board and the Planning Commissioners and are highly fundable.

For the next meeting, we will add 15 minutes to the Agenda for Lary Holland to train the Planning Commissioners on the MEDC (Michigan Economic Development Committee) grant process.

The township can inspect and condemn properties should the need arise. This will trigger the process for redevelopment and funds can be applied for.

Contact information will be sent to the Planning Commissioners so we may establish an email communication chain.
